# THE EASIEST EASY READERS

**Learning to read is as mysterious as it is exciting. Reading acquisition is much like speech acquisition—each learner progresses in a unique way and at an individual pace. The best support we can offer children learning to read is to follow their lead, answer their questions, and *above all* to continue to read aloud to them, so that the riches of well-written stories are not lost to them in the struggle to decode words.**

**The following books are all shelved in the JE section.**
**If the book is a part of a publisher's 'series,' the name of the series is listed under the title.**

| | |
|---|---|
| Benjamin | FOOTPRINTS IN THE SNOW<br>*Hello Reader! Level 1, Cartwheel* |
